

# Crowning the analytics pyramid

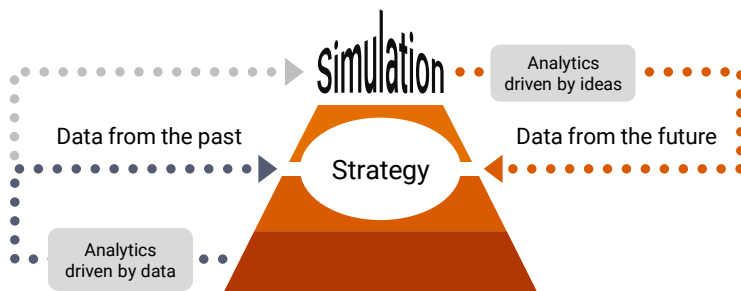

Simulation shapes the future  
from great ideas

Analytics reads the future  
from patterns in the cloud

 **Live demo of strategic workforce planning**

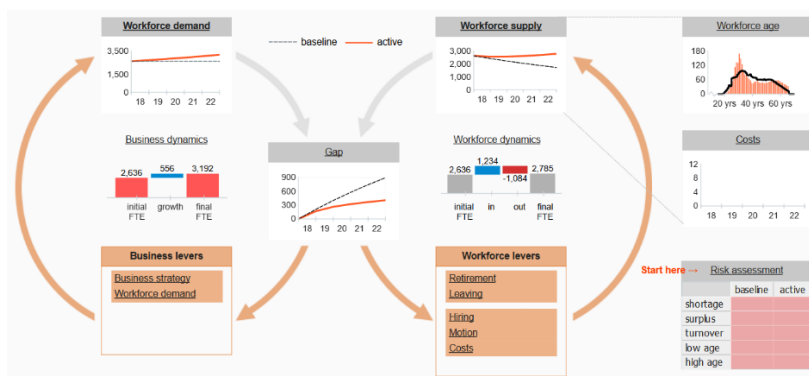

You are welcome to experience our simulation solution live during  
the morning break day two of People Analytics World 2018 (12 April)

Our agile scenario planning solutions let you explore the likely future effects of strategic options.

Crowning the analytics pyramid

Your possibility to experience the future is provided through customer-specific computer simulations, capturing the structural drivers that create change, and tuned with information from the lower levels of the analytics pyramid.

You can use your own strategy simulation cockpit, like the one above, to explore alternative future workforce scenarios, and settle for the best.

WINNER

PEOPLE ANALYTICS  
— AWARDS 2016 —

BUSINESS SUPERCHARGER

Dynaplan received the Business Supercharger award in 2016 for our leading-edge work in people analytics.
